Mr. and Mrs. A. V. Long and children are again at their Walnut street home, after a three months' sojourn at Kingsley lake.

Be a booster, not a knocker. You can boost the town and neighborhood by not opposing the proposed drainage scheme. Starke is largely dependent for prosperity on the strawberry industry, and anything that will help the growers will help the town.

A good deal of Starke and all the surrounding country owe their intractable and productiveness to drainage. The drainage that was good enough before is not adequate now since we have begun to grow so fast. Let no one stand in the way of more efficient drainage.

Mrs. J. E. Maines and children, of Lake Butler, arrived in town Wednesday and will be the guests of Col. and Mrs. D. E. Knight for several days. Mrs. Maines was formerly known here as Miss Salome York, and has many old friends who will be glad to see her again.

The stone is an inch long and half inch in diameter, of gray color, and weighs 150 grains.

No, Mr. Drummer, the little fishes you see in the pools along the streets did not come down with the rain—they came up. During heavy rains, when there is water connection from the highest point in Starke to the Alligator, the minnows, whose nature is to always swim upstream, ascend as far as they can, and when the water recedes they are unable to return and stay in the pools.

Four ears of corn from 11 to 12 inches long and 8½ inches in diameter were sent to the Telegraph office by Willy Roberson, of Sampson City. The corn is the Hastings Prolific, which Mr. Roberson tried this year. It has given him full satisfaction.

Alexander Pope. Pope's features were small and delicate. All his life he was very pale and looked sickly.

Irritation and Pain. A sharp distinction should be drawn between irritation and pain. Irritation is not pain, but only a frequent cause of it. Thus a crumb lodged in the larynx near the vocal cords produces violent irritation and prolonged coughing, which often results in actual pain. So, too, a speck of dust in the eye sets up violent irritation and inflammation, followed by acute pain. Of the surface of the body the finger tips and the end of the tongue are most sensitive—for instance, a burn on the fingers is much more painful than one on the back would be, while one on the tongue would be more painful still. Deep wounds are not painful, as a rule, save as regards the surface injury.

How Far the Blood Travels. The mileage of the blood circulation reveals some astonishing facts. It has been calculated, for instance, that, assuming the heart to beat sixty-nine times a minute at ordinary pressure, the blood goes at the rate of 207 yards in a minute, or nine miles an hour, 220 miles a day and 80,000 miles a year. If a man eighty-four years old could have had one single blood corpuscle floating in his blood all his life it would have traveled in that time nearly 7,000,000 miles.—Chicago Record-Herald.

MALARIA.

A Statement of a Successful Case. (Mrs.) Mabel Smith, Dallas, writes: "1909, PAM-ALA has absolutely cured me of Malaria (Chills and Fever). For months past I have lived in the swampy Louisiana. I never saw a well day for months. Malaria has held me in its grip and for the past seven weeks I have been confined to bed. Thanks to Pam-ALA I am now entirely well again."

PAM-ALA

Contains no Quinine. All Druggists. \$1.00 bottles.

The Word "Ragging." The word "ragging" is more common in England than in this country, even if the custom is not. An English paper asserts that "rag" is not a slang word, but is a real old verb, also to be found in use among Icelanders, meaning to banter or irritate. In Lincolnshire and doubtless other counties to provoke a boy is called "ragging" or "rag out." "Bullyrag" is an elaboration of the elementary term, and here also the meaning is clear. A rag-buffin originally meant a kind of demon.

The Diamond Carat. In diamond language a carat is equal to four grains, but it is not customary among merchants to speak of carats under twelve grains. Many difficulties in the trade are due to the fact that the carat of France is lighter than that of Leipzig, which has one lighter than the carats of Holland and Antwerp. Attempts to establish a universal standard have failed, owing to conservatism and false pride.

The Unknown. A Frenchman attended a Burns celebration. At the end of the jollification a friend asked him if he had enjoyed himself. "Why," said he, with the characteristic French shrug and upturned hands, "it was magnificent. The haggis was good, the whisky was very good, the singing was good, but who was Mr. Auld Langsyne? Was he a Scottish chief?"—Argonaut.

N. B. Hull's DEPARTMENT STORE

Are you willing to save money? Would you prefer more pay? Would you save a portion of that pay when you buy, if you were shown where you could do it? It's a question of quality and price. We believe when you call on us we can show you a range of prices that fits the quality. In the Dress Goods line our selection is so wide that to fail to find a choice is almost impossible. Fall and winter styles are shown in patterns too numerous to mention. Then our Shoe Department contains all the latest and best numbers of good shoes. Our Rugs have a goodly showing, along with our Furniture upstairs. Our Hardware and Store Department contains all the Tools and Farming Implements needed. Our Grocery Department keeps an increasing, which shows how this department is run. We do a Cash business, or it would not grow so fast. Prices are what tell. Call and let us show you anything you wish to see.

If the gentleman who on Aug. 27 bought 18 grocery items amounting to \$6.10 will call with this advertisement we will give him free of all cost one pound of our best coffee.

Clothing for Men and Boys as good as the best. The prices are winners. Look the line over.

If you read this advertisement regularly you will be the one to get the benefit. Each week some one will get a free article. Read this advertisement over.
